

Privacy Policy

This page explains how and when your personal data is collected, processed and used **when accessing dev.rainer-muetze.de or any of its subdomains (like this wiki)**. For rainer-muetze.de and other subdomains of it, please check the [German private policy page](#). Basis of all processing are the terms of the [General Data Protection Regulation](#) (GDPR).

In the following text we use

- “we” for the people managing the website or in GDPR speak: the controller
- “you” for the users accessing the website or in GDPR speak: the data subject

We're not doing anything different than any other website on the planet, but it's only fair we explain it to you.

This text was written to be short and easy to understand by someone who is not a lawyer. If you feel something is not as clear as it should be, please help to improve it (it's a wiki after all).

Cookies

Cookies are small text files stored by us inside your browser. This allows us to give your browser a short- and long-term memory.

In general, all cookies we set are necessary to provide functionality on our sites. Details on which cookies are set by DokuWiki are available at [Cookies](#).

Some of the third party services we use (see below) may also set their own cookies. We explain those further down. Your browser has settings to control which cookies it accepts and for how long it stores them. [How to enable cookies](#).

Server Logs

The web server hosting our site will log each page access. This log will also contain some personal data:

- your IP address

- the referrer (where you came from)
- your browser identification

This information is necessary for legal reasons and to analyze and prevent abuse. This allows us to keep users away who try to crash our server or to have necessary evidence in case of illegal or criminal activity.

Our server logs are automatically deleted after 90 days. We will only keep log files longer when they are needed as evidence during an investigation.

Change Logs

When you edit a page in the wiki, we log the following personal data

- username
- IP address

This allows us to easily block users who vandalize the wiki. And your username allows us to credit you according to the [CC Attribution Share Alike](#) license we use on this wiki.

User Profiles

If we register you for an account you need to provide the following minimal data:

- username
- email address
- password

All other data is optional.

Third Party Processing

Currently there should be no third party processing.

Your Rights

The GDPR guarantees your right to information about your personal data, as well as your rights to rectification, erasure, and portability (e.g. for transferring data). Furthermore, you have a right to restriction and objection of processing your data.

Feel free to write an email to publisher@rainer-muetze.de, so that we can work out how we can help you.

Of course, you also have a right to lodge a complaint with the supervisory data protection authority.

Note

The content of this page is a small modified copy of the [privacy policy of DokuWiki](#). You can see a list of used plugins on the button of my [German Impressum page](#). Please let me know, if this privacy page needs modifications e.g. for the used plugins.
